FIVE BLOWN TO DEATH.

A Boy Fires a Bullet Into a Dyna-mite Store House.

Edward Latshaw, a subcontractor on the government work on the Mississippi river, had six hundred pounds of dynamite stored away in the cellar of a house at Specht's Ferry, twelve miles north of Dubuque, Iowa. Yesterday his son, while practicing with a revolver, missed the target, the bullet entering the cellar and firing the dynamite. The house was blown to splinters, and the following persons killed: Edward Latshaw and his wife, Charity.

Ray Latshaw, twelve years. Mat. Latshaw, eight years, all of Victory,

Mis.
Hans Bjornstadt of Lacrosse, Wis.
The wounded are: Matt Faber, who may die; Ed. Bench of Laning, eye knocked out and badly bruised, and Mabel Latshaw, skull fractured.
The dead are terribly mangled. A four-year-old baby in the parlor escaped unhurt. The glass in buildings in the hamlet were all broken, and boats on the opposite side of the river considerably damaged. A special train from Dubuque took physicians to cial train from Dubuque took physicians to the scene and conveyed the wounded to the hospital.

INOCULATED WITH CANCER.

Believed to Be the First Case in This From the New York World.

Dr. Edward W. Burnette of No. 115 West 34th street is dying from cancer. About eight months ago a woman called on Dr. Burnette and complained of an irritation of the tongue. The doctor applied nitrate of silver with his finger. He shaved himself several hours later and scratched his left cheek. He applied powder, but he noticed that the cut stung him longer than face became swollen and a

The woman whom he had treated, it was The woman whom he had treated, it was learned, suffered from cancer, and her tongue was afterward cut out. She was about it. Laura Mayo, the wife, inoculated by using a speaking tube in the house of a man who had died from can-cer in the liver. Dr. Burnette was operated on in March

last, and the cheek was cut away almost to the left eye. He improved at first, but his condition recently changed for the worse, and it is now believed that he has a

worse, and it is now believed that he has a cancer in the liver.

Dr. Roland D. Jones of No. 36 West 59th street, a friend of Dr. Burnette, has charge of the case. Dr. Jones said yesterday that it was the first case in the history of mediit was the first case in the history of medi-cine in this country in which a complete chain of inoculation from cancer had been established. It was a point on which the physicians disagreed, he added, and for that reason no matter how it ended, he in-tended to call together half a dozen promi-nent physicians when the time arrived to demonstrate the fact that inoculation in this instance was beyond question.

Dr. Burnette is fifty vears old single, and

Dr. Burnette is fifty years old, single, and was for many years house surgeon of Bellevue Hospital.

Limit to Women's Bicycle Rides.

From the Chicago Times-Herald. Women who ride bicycles should make it a law with themselves never to ride after a feeling of weariness comes over them. said a well-known physician yesterday. just came from visiting a woman who tried to ride around the city last Sunday. It was the fourth time she had ever ridden a wheel out of doors. She get half way around, came home in street cars and a carriage, and has been sick in bed ever since. She ought to be an example to all women who ride. For those who are bewomen who ride. For those who are be-ginning, especially, and in a measure for all women, there is great danger in over-doing. Some women ride centuries, it is true, but they are men in strength. No or-dinary woman should start out before knowing how far she is going. Ordinarily, knowing how far she is going. Ordinarily, though, they ride twice as far as they ought. They start out and ride away from home until they get tired. Then they have to ride back, getting more and more exhausted with every turn of the wheels. No ordinary woman who rides once or twice a week should go more than ten miles at a trip. That is perhaps an hour's ride, that may be coally. week should go more than ten miles at a trip. That is perhaps an hour's ride, that may be easily extended to an hour and a quarter before that distance is covered, and if she does not feel fresh and in a glow when she stops, she may be certain that she has ridden too long. Naturally there is that healthy tired feeling which any one recognizes after athletic exercise, but it is quite different from and revert to be mile quite different from and never to be mis-taken for the weariness which comes from too much exertion and straining of the nerves and muscles. Very few women have ever been injured on a bicycle who kept to this rule and limited their riging to normal distances

listances.
"The limit.of distance, which is desig-"The limit of distance, which is designated by the first feeling of weariness, is only a little more important than the limit of speed which the female frame is capable of undergoing under healthy exercising rules. Whether a man can ride at full speed for a long distance and still retain his good health is a doubtful question. It is certain, however, that no woman can keep up a high rate of speed for even a generous portion of \(\alpha \) mile and not create the beginnings of injuries. The added strength required to increase speed even a little after a certain amount of power has been expended is out of all proportion to the results. There is no relaxation of the muscless between revolutions of the pedals, muscles between revolutions of the pedals, nor any let up on the nervous and muscular strain while the speed lasts. The heart is far more taxed than one realizes at the moment, and that species of tingling or numbress in the perves and muscles which often results is only a sign that they hav both been overtaxed."

have made an assignment to J.F.Broderick. The liabilities of the firm, which is the largest concern of the kind in the northwest, are about \$200,000, and it is claimed that the assets will about liquidate the

CUT IIIS WIFE

Frank Mayo to Retire From the Hacl

Driving Business. Frank Mayo, a colored man, who is th driver of one of the so-called "nightline" hacks, will not handle the reins for six months. The reason why he will not have to work is that he had trouble with his wife Saturday night, and used a razor on her face, but not for shaving purposes. It appears that Frank returned to his home, 214 L street, Saturday night, and found man named Johnson and a female companthought she had done no harm, but the husband thought she should not allow such people in the house, and concluded the quarrel by using his razor on her face. The wound was not a serious one, but he had also used his fist on her, and so badly disfigured her that she will, perhaps, carry the marks to der grave.

he marks to her grave.

After doing all this the husband put his wife in the carriage and drove off with her. Neighbors thought she had been fatally injured, and the police sent a message for his arrest to all the stations. Instead of going with his wife to a hospital, Mayo drove across the river as far as Jackson City and when he returned Policeman Du-City, and when he returned Policeman Du

when he returned Policeman Duvall arrested him.

When he appeared in court this morning he was ready to repent. He said he loved his wife dearly, but he thought she should not have permitted the other man to come to the house.

A sentence of six months was imposed.

ST. PAUL'S LAWN FETE.

Everything is Ready for a Brilliant Opening Tonight. During last week extensive preparations

were made by the congregation of St. l'aul's Catholic Church for the lawn fete which will commence tonight at 7:30 on the grounds adjoining the rectory, and continue every evening for five days. Amusements of all kinds will be given, and the commit tee in charge of arrangements have spared no expense to secure suitable entertainment for the young and old. Dancing and a mer-ry-go-round, the latter run by steam, will

for the young and out. Dancing an entry-go-round, the latter run by steam, will be special features.

The grounds will be beautifully illuminated, and at the various booths will be found refreshments of all kinds.

St. Paul's Drum Corps, under the instruction of Maj. Forgerty, will give an exhibition drill, and as these lads are well up in the control of the contr

tion of Maj. Forgerty, will give an exhibition drill, and as these lads are well up in military tactics for youngsters, a creditable display may be expected.

The following ladies and gentlemen were selected by Father Foley at last night's meeting to take charge of the various booths and committees: Executive committee—Rev. Father Mackin, chairman, assisted by Fathers Foley and Gross, and Messrs. Sheridan, Woods, McDermott and Gross, Reception—Messrs. Eberly, Hurney, Walsh, Straub and Soliari, Dancing—Dr. Koch, Messrs. Dunn, Zeh and Leonard. Press—Messrs. Sheridan, Hickey, Hall and Federline. Confectionery tables—No. 1, Mrs. Zeh and Mrs. Mayse: No. 2, Miss Dunn. Candy table—Miss Byrnes, Mrs. Green and Mrs. Aikens. Lemonade and notions—The Misses Herron and Jirdonson. Merry-go-round—Messrs. Sheridan, Federline, Griffin, Simonton and McEnany.

A Divorce Granted.

Judge Cox today granted Amy L. Yates a divorce from William J. Yates, and the crstody and guardianship of their two children. In her petition for divorce, filed April 26, 1893, Mrs. Yates stated that they were married at Rockville, Md., August 31, 1887, two children being born to them. She ual drunkard, and with being an habit-ual drunkard, and with having failed to support his family. In a supplemental bill, filed April 27 last, she charged him with ceserting and abandoning her April 15, 1893. charged her husband with being an habit-

Tried to Blow Up a Church.

An attempt was made to blow up the First Congregational Church of Greenville, Mich., yesterday with dynamite. The charge was placed under the corner stone, but not being put under far enough, little damage was done. The supposition is that the attempt was made for the purpose of obtaining a large sum of money that is re-ported to have been deposited in the corner stone when the church was built.

Charles N. Armstrong, whose horse was permitted to injure a tree on Executive avenue near the White House Saturday, forfeited \$5 collateral in the Police Court

Occurred in the Corps Saturday.

A Characteristic Letter From Gen. Sherman on Those Who Desire

A vacancy occurred in the army Saturday, for which over one hundred duly ordained ministers of the Gospel have been patiently waiting for a long time. It is occasioned by the compulsory retirement eration of law on account of age. Chaplain Parker is now at San Diego, Califor nia, where he has been on sick leave for several weeks. He is a native of New York, but was appointed to the army from Missouri in July, 1882.

Applications for appointments of this kind are more numerous than in the case of almost any other office within the gift of the President, and it is said that he is subjected to more importunity on their account than in any other class of appointments, including even the highly de sirable places in the pay departments of the army and navy, which are similarly open to civilians. Chaplains, who are irreverently termed "sky pilots" by soldiers not having the fear of God before their eyes, occupy a dignified and honorable po-sition in the service and usually have very easy and congenial employment. They are appointed for life and are retired on threequarters pay. The law provides for thirty post chaplains and four regimental chaplains. Of this number three of the chap-lains (regimental) are colored. The legal quota was full until Chaplain Parker re-tired, and there appears to be a most un-seemly scramble for this vacancy. The pay of a chaplain is \$1,500 per annum, with in increase every five years until it reaches \$2,100. The retired pay ranges from \$1,350 to \$1,890 a year, according to length of

It is learned on good authority that the existing vacancy will not be filled for several weeks at least, inasmuch as Secretary Lamont does not propose to bring the matter to the President's attention until he returns to the city from Gray Gables in October. There is no special oc-casion for haste in the matter, and it is not casion for haste in the matter, and it is not believed that the service will suffer any serious detriment from the proposed delay. The views of many army officers in regard to the unusual persistency evinced by applicants for appointments as chapplains is shown in a letter which was writplains is snown in a letter which was written to an applicant by Gen. William T. Sherman in July, 1882, while he was in command of the army, with headquarters at Washington. The views of that rugged old soldier were expressed with unusual bluntness and vigor, notwithstanding which they are generally shared by nearly all the officials of the army.

they are generally shared by nearly all the officials of the army.

The letter, which has never before appeared in print, is as follows (the name of the recipient being omitted):

HEADQUARTERS ARMY OF THE UNITED STATES, WASHINGTON, D. C., July 26, 1882.

My Dear Sir: Yours of the 24th is received, and if your brother, will make his application to the Secretary of War for a chaplaincy in the army and send me his papers, I will indorse and lay them before the Secretary for the action of the President, who alone always makes these appointments. these appointments.

inever give original letters to the Present or Secretary of War, because it would wrong for me to do so, as they might fer several applicants to me for selection, refer several applicants to me for selection, and I would seem to be committed to the one holding my letter. I think there are several hundred applicants now, each one of whom is stronger in the faith than St. Paul, and most of whom, before appointment, are anxious to be martyrs; but once appointed and confirmed, they object to our frontier posts because they are ill-adapted for raising a large family of small children. Of course, the whole system as now is a Of course, the whole system as now is a farce, and meant to be so. If Congress farce, and meant to be so. If Congress wanted the army to have the influence of religion it would allow the commanding officer of each post remote from civilization to hire and pay for a minister while employed, like surgeons. Of such posts there are nearly a hundred, whereas the chaplains are limited to thirty—say, half of whom are sick, or don't like the isolation of Tayas Arizons & Of course there

greedy are the approved a very wait for the funeral.

If your brother wants to join in this lift your brother wants to join in this send scramble to become a martyr. me his papers, and I will see that they are or member of Congress to rush to the Pres-ident the moment he learns a chaplain is

"in extremis."
With great respect,
W. T. SHERMAN.

THE CONSULAR SERVICE.

A Prospect That It May Be Transfer-red to the Treasury Department.

There is a good prospect that the consular service may be transferred from the State Department to the Treasury Department. Assistant Secretaries Uhl and Hamlin, who have had several conferences on the subject, are said to be firmly convinced that the proposed transfer would be to the best interests of the government and would tend to increase the customs revenue. Assistant Secretary Uhl is now making a personal inspection of the consular service in Europe with a view to suggesting the advisability

of a change to Congress.

Assistant Secretary Hamlin has made a statement on the subject, in which he says; "There is no question in my mind that the transfer of the consular service to the Treasury Department will be doubly beneficial. It will relieve the Secretary of State from an immense burden of care, leaving him free to attend to the important interhim free to attend to the important international questions which devoive upon him. It will enable the Treasury Department to so perfect its knowledge of foreign markets and the values of foreign goods that undervaluations of imports will become impossible. I am determined that undervaluations shall cease. There has been under this administration a great stirring up in this customs service, and we have been able to a marked degree to check that enormous evil. I am liberal, personally, in my views concerning the tariff, but when there is a law on the statute books it should be rigidly enforced. The honest merchants and manuon the statute books it should be rigidly enforced. The honest merchants and manufacturers of this country have suffered untoid evils from the high protective tariff. Honest merchants have been driven out of business, because they have paid duties on the real value of their importations, while dishonest ones have amassed wealth by systematic and successful undervaluations. This can and shall be stopped.

"Were the consular service under the control of the Treasury Department we would divide the whole of Europe into districts on manufacturing rather than on geographical or national lines, and place a special agent of the treasury in charge of each. Then, with the best men obtainable

Then, with the best men obtainable each. Then, with the best men obtainable in the consular service, working in connection with special agents, and in thorough harmony with the customs administration service, undervaluations can be rendered absolutely impossible."

NEW NAVAL VESSELS. Orders Given for Expediting the

Work on Them. Secretary Herbert has issued a statement saying that he has given orders that work on vessels under construction for the navy shall be expedited. The order embrace not only the work on navy yard ships, but also the work on vessels being built under contract. All have been urged to increased diligence.

The Secretary also says that he is pushing along the manufacture of ordnance and all other work in progress under his direction.

He deprecates the practice which Congress has fallen into of relieving shipbuild-

ers of penalties incurred.
"The contracts," he says, "all provide "The contracts," he says, "all provide penalties for failure to complete work in time. Penalties for delay have frequently been imposed upon contractors by the Navy Department, but, unfortunately, Congress has in almost every instance, when it was asked, relieved against these penalties. The effect of such acts is necessarily demoralizing. It is hoped that penalties incurred in the future will be allowed to stard."

Probability of Much Factional Warfare Before the Present Issues

Are Settled.

Having for many weeks discussed the question as to who shall represent them in the next national republican convention the republicans of the District are now discussing who shall be the members the next republican central committee. This committee is an important one, and includes one member from each of the twenty-two legislative districts. It has had much to say in past years as to the distribution of the federal pap in the District, and all of the republicans of inluence, and those who are not of fluence, aspire to membership in it. The present committee has as its chairman Aaron Bradshaw of the twenty-first district. Mr, Bradshaw has been a member of the committee off and on since 1876, and last year was elected to be chairman. The chairman of the committee is considered last year was elected to be chairman. The chairman of the committee is considered as being the head of the republican party here, and for this reason there are several applicants for the chairmanship now. The members of the committee are selected by conventions, which are held in the different legislative districts, and these conventions will be held at a not distant day. tions will be held at a not distant day. The present central committee will designate the day for the conventions, and the different republicans who are aspiring to places are working earnestly to have themselves selected when the time comes. The chairman of the present central committee will also call the conventions for the selection of the delegates to the District convention for the selection of two delegates to the mitigal convention. tions will be held at a not distant day

wo delegates to the mational convention.

A Probability of Two Conventions. All is not peace in the present central committee, and as a result two conventions may be held-such was the case four years ago, but the national republican convention recognized the regular organization. which Mr. Davis was chairman. The faction which is headed by Chairman Bradshaw has the major portion of the central committee on its side, and the other people claim that ten of the twenty-two members are with them now and more will be when the time for the assembling of the conven-

the time for the assembling of the conven-tions arrives.

As soon as the two conventions are called the work of the present central committee will be over except that its chairman will call the new committee to order and offi-

call the new committee to order and offi-ciate over its temporary organization. The new committee will then take charge of republican affairs in the District for the next four years.

From present indications a great many members of the present committee will be found on the new one. There is a belief among the republicans that there will be among the republicans that there will be two central committees, and that the national committee of the republican party will be called upon again to decide which is the regular organization. The opponents of the Bradshaw and Carson faction are declaring that they will call conventions also for the selection of a new central committee and for the selection of delegates to the District convention. There are so many republicans whe want "to come to the next conventions" that in order "to satisfy all of the boys" there has been some talk of selecting five delegates instead of three to the conventions from each ward. While the politicians are anxious for an arrangement of this kind, the leaders are opposed to it, and say that it is easier to handle three than five delegates in the convention.

Aspirants in Opposition

The gentlemen who have aspirations to the next national convention are against out that the men who go to the next na-tional convention will have to pay for it, and the more delegates there are in the convention the more it will cost to go to the national convention. The "boys" are making no secret of the fact that they are out for the "stuff." and that the man who has the longest financial pile will get the persimmons.

The frequenters around the District build-

respects prevent two conventions in some of the wards. Their idea is to select three men of their own way of thinking and two from the other side. The chairman of the committee is now advising with the other members of the committee as to the feasiand alleys to create sentiment favorable to themselves, and considerable activity is being exerted along this line.

DIED FROM GRIEF.

Albert B. Clarke Shoots Himself Soc After His Wife's Death.

Albert B. Clarke, formerly a member of the police force, an ex-engineer of the navy, and for some time a watchman in the gov ernment printing office, shot himself through the head at his home, 408 H street northwest. Saturday evening at about 8:30 o'clock. His wife had died about two hours previously of typhoid fever. Grief at her death overcame him, and led to the decision to take his own life. Some days ago the physicians had told him his wife must die This intelligence unnerved him, and he was seen often walking abstractedly up and down in front of the house, with his hat and coat off, and evidently in great mental suffering. In the afternoon, when it was known that Mrs. Clarke could live but a few hours, Mr. Clarke declared he should commit suicide, and went to his room. His commit suicide, and went to his room. His father-in-law followed and took a revolver from him. Mrs. Clarke died about 6 o'clock. The frantic husband stayed by his dead wife I ntil preparations for laying her out began, when he rushed out doors. About 8 o'clock he returned with a bunch of roses and started for his room. Again the father-in-law suspected his intention, and asked him where he was going. He said he was going to see his wife. When told she was not in the room, but dead, he went to her side and to see his wife. When told she was not in the room, but dead, he went to her side and laid the roses on her bresst. A moment later he was in his room, and the report of a pistol told that he had found the opportunity he sought. His body was found stretched upon the bed, with a large hole in the right temple. The police were called, and Coroner Hammett viewed the body and decided that no inquest was necessary. Mr. and Coroner Hammett viewed the body an decided that no inquest was necessary. Mr. Clarke was a member of Hiram Lodge o Masons, under whose auspices his funera and that of his wife will be conducted at o'clock this afternoon at the residence.

TROOP A'S PRACTICE MARCH.

The Members Went to Great Falls and Returned. About thirty-five members of troop A

District National Guard, participated in the march to Great Falls, Md., Saturday evening, the return to the city being made a about 11 o'clock last evening. First Lieut, Charles L. Beatty was in command, in the absence of Capt. H. S. Barbour, and, leaving here at 6:30 Saturday evening, they Great Falls about midnight. The command rested under the trees and on the porches of the hotel, and Sunday was spent in the pursuit of a general good time. Upon invitation they took dinner at the hotel and during the day the command was photographed. The troop left Great Falls about 6 o'clock last evening, stopping on the way home at Cabin John bridge and at Brill's. On the way out Saturday evening Private C. H. Bliss' horse stumbled, and in falling broke the knee cap of one of its fore legs. Just before reaching Cabin John bridge the horse of Sergt. Harold Stewart fell, while the command was at a gallop, and, rolling over him, bruised the sergeant quite badly, although not seriously. Some fifteen or twenty men galloped over the horse and sergeant, and it was at first believed that the sergeant had been seriously injured. Surgeon C. W. Birdsall and Bugler Vogel accompanied the troop. and during the day the command was pho-

Reports received by the signal service

Vice President James L. Ewin, who presided over the meeting, called attention to the case of Saloon Keeper Hall, whose relations with the courts have been attracting public notice for some time past. Herejoiced that Mr. Thomas, the attorney for the District, had ordered the prosecution of Hall for Sunday liquor selling, and he scored Assistant Attorney Pugh for his attitude in the case. He expressed the hope that the excise board would refuse Hall a new license in November. Music was furnished during the meeting by Messrs. Woodward and Nicholson and Mrs. W. S. Nicholson. show another important use for the bicycle in the military service. This consists in the laying of telegraph lines. Experiments having this end in view were made near San Antonio, Texas, by Capt. Thompson San Antonio, Texas, by Capt. Thompson, and proved very successful. A light reel containing one mile of wire was rigged over the rear wheel of a machine, and the rider started to run it out. The run was made and communication established with the starting point in about eight minutes. The return trip, reeling the wire up, was made in about the same time. The experiment proved highly satisfactory, the work being done much quicker and easier than by the old method, in which the horse was utilized. Equity Court No. 1—Judge Cox.

MASSES NOT TO BLAME. Ex-Secretary Foster on the Anti-

Foreigner Riots in Chips. Ex-Secretary of State John W. Foster, in an address in the First Presbyterian Church of Watertown, N. Y., last night, made the following references to the recent Chinese riots: "The opinion formed by me, after careful

inquiry and observation, is that the mass of the population in China, particularly the common people, are not specially hostile to the missionaries and their work They have been permitted to penetrate every part of that vast empire with as little disturbance as the Chinese laborers have spread themselves over the United States, and in case of danger the authorities have usually exerted themselves for their protection. Occasionally riots have taken place, but they are almost invariably traced to the literati, or prospective office-holders, and the ruling classes. These are often bigoted and conceited to the highest degree, and regard the teachings of the missionaries as tending to overthrow the existing order of government and society, which they look upon as a perfect system and sanctified by great antiquity.

President Pierola Inaugurated. President Pierola was inaugurated at Lima, Peru, yesterday, and assumed control of national affairs. The greatest enthusiasm prevailed in the city, and the streets leading to the palace were impassable.

near the midnight hour Moran attacked O'Donnoghue on Potomac street and attempted to secure the latter's money. The attempt waxed into a stern assault, and O'Donnoghue, to protect himself and bills, it is alleged, struck Moran a heavy blow with a brick. The affair took place just as the officers were turning in for the midnight change.

Fort Reno. It is calculated that it should

be located somewhat to the east and on

ground about one-half as high.

The middle-high service as it is now designated was before the establishment of the Tenlevtown line of pipes known as the "high service." The pipes at present are being worked beyond their safe capacity and yet dissatisfaction reigns among the consumers on the line.

Mr. Stitt's Condition.

Rev. Mr. Stitt, after a lingering illness,

again occupied his pulpit at the Dumbar

ton Church yesterday. He spoke on the

"Efficacy of Prayer." His return was

hailed with much delight by his loving

congregation. Rev. Mr. Stitt was much

affected by the deep concern that has been manifested by his congregation in his welfare, ever since his sudden breaking down, and in referring to it displayed much emotion. He has not yet taken up church work permanently, and Rev. Peyton Brown will continue to act as temporary pastor for the present

who will continue its operation.

assigned for next Sunday.

Mr. Joseph B. McGirr will continue to

preside as superintendent of the school,

and Mrs. Wetzel as directress of the choir.

Baptism was administered yesterday evening at the Tenleytown Baptist Church,

in the presence of a large congregation.
On Tuesday evening Mr. Geo. W. Havell,
the sweet Gospel singer of the Central
Union Mission, will visit Tenleytown and

lead the Baptist service there.

Georgetown College will be formally opened Thursday next with solemn high mass, celebrated in Dahlgren Chapel by the president, Rev. J. Haven Richards, assisted by other fathers of the college.

ANTI-SALOON LEAGUE.

Enthusiastic, Meeting, Yesterday to Open the Fall Temperance Campaign.

The first meeting of the fall campaign of

the Anti-Saloon League of the District was

held vesterday afternoon at Waugh M. E.

Church. The opening address was made by

Rev. D. O. Eldridge, who said he was glad

that women are entering the temperance

field, for without their help success can-

not be attained. He made some exceeding-

ly caustic remarks upon the system that

not only recognizes, but, as he says, en-

courages the liquor traffic by utilizing it

for the raising of revenue for the state.

Rev. George Luccock, pastor of the Metro-politan Presbyterian Church, spoke enthu-

siastically from his experience in temper-

ance work in Iowa and Indiana, where he

has had two pastorates. He said that he

had been in several fights for anti-saloon laws, and he believed that prohibition was

the only thing to be worked for by sincere

temperance people.

Overcome by the Heat.

Robert P. Batty, living on 11th, near M street southeast, was overcome by the heat this morning while walking on Monroe street, Anacostia. He was assisted to a drug store and subsequently was sent to Providence Hospital in the police ambu-

Virginia Avenue Improvement

A long petition signed by B. B. Earn-

shaw and others was received by the Commissioners this morning, requesting the improvement of Virginia avenue southeast be-tween 9th and 11th, and such portions of L street and Georgia avenue, where they in-tersect with Virginia avenue between said streets.

The Air Was Not Pure. From the Detroit Free Press.

A man from the tamarack swamp went to Kansas, thinking to improve his condition but after two years of it returned to his native heath. "How did you like it out there?" asked

an acquaintance. "Not very much." "It's a good country, ain't it?"

"I've seen better." "The air is better than it is here, ain't 11 ?"

"Sometimes it is; but not always."
"I don't see why it ain't as good at one time as another."
"Well, it ain't."
"Why?"
"Cyclones."
"I thought they purified it?"
"That's what I thought till I tried it, but when I had to breathe furniture and weather boardin' an' bed clo's and shingles an' live stock and household goods and farms and fence rails and that sort of things and fence rails and that sort of things about three times a week I sort of changed my mind and came away. Kansas may have some advantages, but air ain't one of them, as a steady thing."

Thirst for Revenge. From Tid-Bits.

Fond Parent-"I wish, Bobby, that 1 could be a little boy again." Bobby-"I wish you could-littler than

her head sticking in the mud. The indica-tions point strongly to foul play. She was last seen alive about 4 o'clock Friday after-noon when she was walking along the banks of the river. Joseph King paid \$5 in the Police Court tday for allowing the decayed body of a cow to remain on the Riggs road longer than was necessary.
